

6142.93 Science Instruction

Paragraph text Paragraph text Paragraph text Paragraph text Paragraph text Paragraph text Paragraph The Governing Board believes that science education should focus on the California Content Standards, giving students an understanding of key scientific concepts and a capacity for scientific ways of thinking. Students should become familiar with the natural world and the interrelation of science, mathematics and technology. As part of their science instruction, students should learn how to apply scientific knowledge and ways of thinking for individual and social purposes.
